MARTIAL LAW IN PETROGRAD.

MAY RESTORE MONARCHY.

(By Associated Press.)
PETROGRAD, Feb. 25.—Petrograd was placed under martial law Saturday. The proclamation issued by the general staff of the Petrograd military district declares:

"Persons caught in the act of stealing, pillaging, attempting expropriation or otherwise committing reprehensible deeds will be shot without pity," and declares every individual, organization or institution now having special permission must hand over to the council of soldiers' and workmen's delegates of the district all bombs, grenades, projectiles and other explosives, which the soldiers' and workmen's delegates will send to army depots.

In consequence of the declaration of a state of siege, six of the most important Petrograd newspapers, which opposed the authority of the soldiers' and workmen's delegates, have been suppressed.

M'CUMBER LASHES THE BOLSHEVIKI

(By Associated Press.)
WASHINGTON, Feb. 25.—Senator McCumber, in a speech in the senate today, denounced the Bolshevik for the surrender to Germany. He said: "A Bolshevik sentiment in America was of no less danger to the cause of democracy."

He assailed profiteers, labor slackers and government officials who fail to stand against them and declared that only a collapse of the central powers could save the allies from defeat unless conditions are changed.

The senator said: "Search the world's history. Nothing can be found to even approach this most damnable treachery to the faithful and bleeding allies, this blackest treason to country and national honor."

"This ingenuous surrender under the Bolshevik reign will let every Russia patriot for a thousand years

FOR OFFICER
PRO-GERMAN

(By Associated Press.)
NEW YORK, Feb. 25.—Captain David A. Henkes, Sixteenth Infantry, U. S. A., has been sentenced to dismissal from the service and confinement at hard labor for twenty-five years by a general court-martial held at Governor's Island.

Henkes, who is of German descent, endeavored to resign his commission, saying he did not care to fight against relatives and friends. Captain Henkes, who was stationed at San Antonio, Tex., last May wrote to the secretary of war, urging him to accept the resignation, which he had already submitted, and giving reasons, which, he declared, would no longer allow him to serve as an officer of the American army.

"Further service as a commissioned officer must sooner or later take me to Europe, and there bring me in

It is said there is some question as to whether he can subpoena cabinet members, but he will endeavor to obtain depositions.

MILLION DOLLAR STEAMER GOES
ASHORE ON NORTH ATLANTIC COASTRescue of Survivors Was Made Difficult
by the Fury of Storm
Raging at the Time

(By Associated Press.)
ST. JOHNS, Feb. 25 (5:30 p. m.)—Twenty-two are known to have been saved from the wreck of the Red Cross liner, Florizel, which is pounding to pieces on the rocks near Broad Cove, where she struck yesterday. It is reported that twenty others were picked up and brought to St. Johns. The captain is among the known survivors. Three lifeboats and four dories took off the first survivors. All suffered terribly from cold and exposure. The ship carried seventy-seven passengers and a crew of sixty-nine.

Naval gunners shot a line across the bow of the Florizel yesterday as she lay submerged from the funnel aft. They saw no attempt on the ship to make the line fast and it was believed that all aboard were dead.

At midnight shore watchers reported lights seen in the wireless room and forecastle. Later the coasting vessel Prospero reported she was alongside the Florizel and expected to remove survivors soon.

The Florizel's captain apparently misjudged his position in a blizzard and blinding snowstorm when he attempted to round Cape Race. The vessel rushed on the ragged rocks of the cove.

ST. JOHNS, N. F., Feb. 25.—The Red Cross liner steamer Florizel, bound from this port for Halifax and New York, with seventy-seven passengers and a crew of sixty-nine, was wrecked near Broad Cove, twenty miles north of Cape Race, Sunday and all on board are supposed to have perished. Six bodies were washed ashore during the day.

The steamer struck early in the morning while fighting her way through a blinding blizzard. In a few hours she had pounded to pieces on the rocks and at dusk her hull had settled under the battering until she was almost submerged.

The bodies washed ashore include those of Joseph Kean and Robert Snow, passengers, and James Long, a sailor. Snow was one of six non-commissioned officers of the New Foundland regiment who were proceeding to Toronto to join the Royal Flying Corps.

OPPORTUNITY TO JOIN
A PIONEER REGIMENTRECRUITING OFFICER AT MIZPAH
OR POST OFFICE TO RECEIVE
RECRUITS AT ONCE.

Lieut. W. B. Joyce, 519th U. S. Engineers, arrived yesterday from Camp Fremont, where his command is stationed, and will for a time recruit men into the service here. He will be assisted by First Class Sergeant Robert Douglas and First Class Private Myrel Settle. The lieutenant does not simply enroll, but inducts immediately into the service. He has the power to enlist even those who are subject to call under the draft, thus giving them an opportunity to get into the service immediately. Furthermore, in the engineers' department the age limit is raised to 41 years. The desire is to bring the strength of the regiment up to 1699 men as soon as possible.

This is known as a sapper or pioneer regiment, and Lieutenant Joyce says in explanation: "A pioneer regiment is one that must be prepared for any sort of work under any conditions. In addition to being trained and ready for fighting, the regiment must be able to run anything from a sewing machine or a locomotive to a printing press or a machine ship; to construct anything from a highway or a railroad track to a bomb-proof gun platform or set of barracks; to handle expertly and properly problems of electrical, mechanical, architectural, mining and civil engineering; in short, to perform all the duties comprehended in the term 'military engineering.' A pioneer regiment is essentially a 'handy' regiment, and its boast is that there is nothing that it can not do, and do well."
